Please complete your evaluation sheet--the comments you make are very important in order to improve this training and provide more value each year.
12 Noon Adjourn

Workstation and presentation descriptions:

Recloser Training - Continuous current ratings, insulating materials, basic settings, GH-4H demo, and interrupting capacities will be covered.

Arrestors - Training will be provided on MCOV ratings, placement, types, ratings, lead length fundamentals, and voltage ratings.

Regulators - Basic settings/buzz words, testing, verification of neutral position, and control testing will be reviewed.

Electronic Reclosers - Detailed working sequences of electronic single- and three-phase reclosers and the operation and functions along with the control panel basics will be discussed.

Regulator, Transformer, Breaker and Battery Inspection and Maintenance Training - The importance of high-voltage substation equipment maintenance will be addressed.

ABOUT THE CONFERENCE: This seminar, designed for lineworkers, utility workers, and lineworker apprentices. consists of intensive hands-on transformer and apparatus workshops, as well as lecture presentations. Safety will be stressed in this lecture- and lab-based seminar. Proper protective clothing is required for the training sessions, to include safety glasses and hardhats. Please bring them with you.

WHEN: February 3-4, 2010

WHERE: Chippewa Valley Technical College
West Campus - Transportation Education Center
4000 Campus Road
Eau Claire, Wisconsin

COST: \$225

TO REGISTER: Call 715-738-3841, refer to CRN 90137. Payment is due at the time of registration. VISA, MasterCard, and Discover are accepted. Walk-in registrations will also be available the morning of February 3.
