

Become a Part-Time Business & Industry Trainer

Share your skills and practical job experience with members of your local community by becoming a Business & Industry Trainer for CVTC!

What is a Business & Industry Trainer?

A Business & Industry Trainer collaborates with area businesses to develop and administer customized training or professional development seminars for employees in a particular field as needed. CVTC works with businesses throughout its 11-county district to provide valuable training designed to enhance employee skills and productivity. These training sessions are held either at one of CVTC's campuses or at the company's location. Business & Industry training assignments offer a great deal of flexibility. In order to be considered, a completed adjunct application to the college is required.

Application Process

Visit www.cvtc.edu/employment for more information or to apply for a posted position.

Selection Process

Our Business & Industry Representatives meet initially with local businesses to identify the type of training they are interested in providing for their employees. They then search through the applications submitted by individuals who indicate an interest in teaching for CVTC. After a qualified individual is found, he/she, along with one of CVTC's Business & Industry Representatives, meets with the company to build the customized training program that fits the company's needs.

CVTC hires employees who are able to meet the challenges of the 21st Century. We are seeing individuals who are creative, open to change and new methods of work practices, and willing to promote the College's vision and mission in a customer-oriented, participatory environment. Individuals who share the College's core values of commitment, collaboration, trust, respect, excellence, and accountability are encouraged to apply.

Mission Statement

Chippewa Valley Technical College delivers superior, progressive technical education which improves the lives of students, meets the workforce needs of the region, and strengthens the larger community.

Vision Statement

Chippewa Valley Technical College will be a dynamic community partner dedicated to adding value through learning and student success.
